VECTOR (requires that you create an account)

(Video Exploration of Careers, Transitions, Opportunities, and Realities) VECTOR is a video vignette library that profiles individual Canadians in the workplace. It shows them at work, describing the nature of their job and conditions of their workplace. VECTOR project partners, in collaboration with 16 sector councils, have produced 120 occupations to date identifying careers/occupations that would be of interest to youth and that currently face, or will soon face, labour market shortages.
