Carpentry

Framing and Forming

Program Description

The Carpentry Framing and Forming foundation program, leads to a Certificate of Completion for Level 1 technical training in this trade. Carpenters construct, renovate and repair structures made of wood, steel, concrete and other materials. While conforming to plans, specifications and building codes, they may work on residential, civil, institutional, commercial and industrial projects. Training prepares students for entry-level employment in the carpentry trade. Basic theory and related information along with hands-on shop practice enable students to become competent in basic carpentry tasks.

Upon successful completion of this foundation program, students will achieve technical training credit for the first of four levels towards Red Seal certification and can seek employment as apprentices.

Program Requirements

- English 12 or Comm 12
